ZAMBO Alfred Yohann E.

Systems, Network & Security Engineer

Yaoundé, Cameroon | +237 6 94 90 45 03 | yohanzambo.28@gmail.com | linkedin.com/in/alfred-y-zambo-8359311a1

PROFILE

Systems, network and IT security specialist with 5+ years of experience operating and securing critical infrastructure: virtualization, storage, networking and enterprise information systems security. Holds multiple certifications in cybersecurity and systems administration, with more than ten projects delivered from design through to production. Combines technical expertise, automation and security best practices to build reliable, highly available and compliant infrastructure.

TECHNICAL SKILLS

Systems Administration	▸ **Servers & virtualization**: HPE ProLiant Gen9/10/11, Dell PowerEdge, VMware vSphere (ESXi, vCenter), Proxmox VE, Hyper-V ▸ **OS**: Linux (Ubuntu, RHEL/Rocky, AlmaLinux, CentOS), Windows Server ▸ **Services & databases**: DNS/DNSSEC, DHCP, SMTP, SNMP, Nginx, TLS/PKI, Active Directory, MySQL, PostgreSQL, MSSQL ▸ **Storage & backup**: HPE MSA 2050/2060 SAN, NAS, Fibre Channel, Veeam Backup & Replication, Proxmox Backup Server ▸ **Monitoring**: Prometheus, Grafana, Alertmanager, Nagios ▸ **Cloud**: AWS EC2
Network & Security Administration	▸ **Switching & routing**: Cisco switches (Catalyst 2960-X, 2960-L, 3560, 9300), Fortinet switches (FortiSwitch 148F-FPOE), Cisco routers (1941, 7200), VLAN 802.1Q, inter-VLAN routing, OSPF, BGP ▸ **Enterprise Wi-Fi**: Ruckus Networks, Ubiquiti UniFi, FortiAP ▸ **Firewalls**: FortiGate (100F, 200E, 600F), FortiAnalyzer, FortiManager, pfSense, firewall policies, IPS, application control, traffic inspection, web filtering, captive portal, IPsec VPN, SD-WAN ▸ **Detection & analysis**: Wazuh (SIEM), Kaspersky EDR, Wireshark, Nmap, Kali
Automation & DevOps	▸ Ansible, Bash, Python, Git / GitLab, Docker & Docker Compose; Kubernetes and Terraform fundamentals
Frameworks	▸ ISO/IEC 27001, ISO/IEC 27005, NIST CSF, CIS Benchmarks, ITIL v4

PROFESSIONAL EXPERIENCE

Technical Officer — Systems, Network & Security Administrator

Feb 2022 – Present

National Agency for Information and Communication Technologies (ANTIC)

Yaoundé, Cameroon

Information Systems Unit (CSI) — ICT Studies & Development Division

Infrastructure & Virtualization

- Operate production infrastructure: HPE ProLiant Gen9/10/11 servers, vSphere and Proxmox VE clusters, HPE MSA 2050/2060 SAN over Fibre Channel and Ethernet; ESXi upgrades, VM migration and consolidation, HA/DRS optimization; administration of Linux and Windows servers.
- Designed backup, replication and restore architectures and procedures for virtual machines and containers (Veeam Backup & Replication, Proxmox Backup Server, NAS) with defined RPO/RTO targets.
- Migrated the DNS infrastructure of the national .cm ccTLD and deployed, in collaboration with ICANN, dedicated DNSSEC signing servers (*signers*) for the ".cm", "co.cm", "com.cm", "net.cm" and "edu.cm" zones; managed the KSK/ZSK cryptographic key lifecycle (generation, rollovers, DS record publication) and operate the chain of trust in production.
- Hardened the authoritative DNS servers (BIND 9.18) for the ccTLD zones and the "antic.cm" zone; monitor the related DNS infrastructure.

Security & Compliance

- Developed ANTIC's Information Security Policies and the technical documentation for information system administration.

- Administer the central FortiGate firewall (firewall policies, traffic inspection, IPS, application control, web filtering, captive portal, multi-ISP policy-based routing); analyze security logs and events in FortiAnalyzer.
- Automated CIS Benchmark hardening and compliance auditing of Linux servers with Ansible; hardened the Active Directory domain controller; vulnerability scanning, SIEM integration (Wazuh), antivirus and EDR for end users.

Automation & DevOps

- Set up the internal GitLab forge on Docker to manage source code, playbooks and infrastructure scripts.
- Deployed a Teleport privileged-access bastion (SSH, RDP, web admin consoles, MFA).
- Deploy business applications and internal platforms with Docker Compose; administer databases.
- Set up Prometheus and Grafana monitoring.
- Built an on-premises AI assistant pilot (Ollama, Open WebUI, Qdrant RAG, Docker Compose) sized for 250 users; wrote the technical specifications for the GPU server that will host the models.

Projects, Support & Mentoring

- Manage public investment projects (technical specifications, project maturation documents, technical bid evaluation committees) and provide technical support to public administrations and municipalities for their IT master plans.
- Supervise cybersecurity, networking and telecommunications interns (Bachelor's and Master's level); provide L1–L3 support and oversee IT contractors and suppliers.

IT Infrastructure Intern

Apr – Sep 2021

Aéroports du Cameroun (ADC) — Yaoundé-Nsimalen International Airport

Yaoundé, Cameroon

Power Plant Department — Critical Electrical Infrastructure

- Optimized the Computerized Maintenance Management System (CMMS) used to plan and track maintenance of critical electrical installations.
- Took part in maintenance operations, wrote technical reports and tracked key performance indicators.

BADGES & CERTIFICATIONS

CCNA: Enterprise Networking, Security and Automation	***Cisco***
Fortinet NSE 5	***Fortinet***
Palo Alto Networks Certified Cybersecurity Practitioner	***Palo Alto Networks***
AWS Cloud Practitioner	***Amazon Web Services***
AWS AI Practitioner	***Amazon Web Services***
ISO/IEC 27001 Lead Implementer	***PECB***
Linux Foundation Certified System Administrator (LFCS)	***Linux Foundation***
Kubernetes and Cloud Native Associate (KCNA)	***Linux Foundation***
Linux Foundation Certified IT Associate (LFCA)	***Linux Foundation***
Bash (SC103), YAML (SC104), JSON (SC105)	***Linux Foundation***
Containers with Docker (SC109)	***Linux Foundation***

EDUCATION

Master's Degree — Electrical & Industrial Computer Engineering (M.Sc.) — **2021**
Cameroon

Engineer's Diploma — Computer Systems & Networks — **2019**
Cameroon

Scientific Baccalaureate — **2015**
Cameroon

LANGUAGES

French — Native
English — Professional
